

# Subject Index

## Abrasives

Abrasion Resistance of Concrete, 665

## Acceleration

Shaking-Table Study of Base Isolation for Masonry Buildings, 934

Studies on Seismic Isolation of Buildings, 933

## Accelerometer tests

Seismic Response of Transamerica Building. I: Data and Preliminary Analysis, 884

Torsional Response of Unique Building, 837

## Accident data

Characteristics of Fixed-Roadside-Object Side-Impact Accidents, 996

## Accident factors

Characteristics of Fixed-Roadside-Object Side-Impact Accidents, 996

## Accident types

Characteristics of Fixed-Roadside-Object Side-Impact Accidents, 996

## Accidents

Costs of Construction Injuries, 114

Going Where No Man Can Go, 1195

## Accuracy

Electronic Theodolites: Comparison Test, 962

Experiment on Accuracy of Optical Theodolites, 974

Measurement of Regular Wave Reflection, 1115

Off-Line Spatial Alignment, 975

## Acetate

Inhibition of Acetate Methanogenesis by Phenols, 343

## Acid mine water

Kinetics of Manganese(II) Oxidation with Chlorine, 334

## Acidic water

Acidification Potential of Snowpack in Sierra Nevada, 342

Limestone Contactors: Steady-State Design Relationships, 333

Strength and Durability of Sulfur Mortar, 674

## Acoustic measurement

Characterization of Acoustic Emission Signals from Mode I Crack, 250

Damage Assessment in Concrete Using Quantitative Acoustic Emission, 295

## Acoustic waves

Characterization of Acoustic Emission Signals from Mode I Crack, 250

In Situ Field Testing for Fracture Properties of Dam Concrete, 679

## Acoustics

Damage Assessment in Concrete Using Quantitative Acoustic Emission, 295

## Activated carbon

Aerobic Biological Regeneration of Dichloromethane-Loaded Activated Carbon, 322

Evaluating Capacities of GAC Preloaded with Natural Water, 314

## Activated carbon filters

Effect of Biofilm Accumulation on Colloid Cohesion, 356

## Activated carbon treatment

Evaluating Capacities of GAC Preloaded with Natural Water, 314

Evaluation of BAT for VOCs in Drinking Water, 326

## Activated sludge

Clarifier-Sludge-Blanket Behavior at Industrial Activated-Sludge Plant, 357

Electricity Use in Small Wastewater Treatment Plants, 330

## Activation

Activation Energy for Creep of Spray Ice, 44

## Active control

Active Control and Seismic Isolation, 269

Aseismic Hybrid Control Systems for Building Structures, 190

Damping of Vibration by Actively Controlled Initial Distortions, 21

Full-Scale Implementation of Active Control. I: Design and Simulation, 945

Structural Control Including Soil-Structure Interaction Effects, 270

Time-Delay Compensation in Active Damping of Structures, 288

## Adaptive systems

Managing During Organizational Change, 657

## Adhesive bonding

Analysis of Adhesive-Bonded Joints with Nonidentical Adherends, 175

## Adjustment

Least-Squares Adjustments of Seasonal Leveling, 967

## Adsorption

Aerobic Biological Regeneration of Dichloromethane-Loaded Activated Carbon, 322

Evaluating Capacities of GAC Preloaded with Natural Water, 314

GAC Adsorber Design for Removal of Chlorinated Pesticides, 315

Modified Solution of Homogeneous Surface Diffusion Model for Adsorption, 332

## Advection

Cubic-Spline Interpolation in Lagrangian Advection Computation, 483

Enhanced One-Dimensional Modeling of Transport in Rivers, 540

## Aeration

Dynamic Surface Tension Effects on Oxygen Transfer, 318

- Evaluation of BAT for VOCs in Drinking Water, 326
- Uniform Aerated Chute Flow, 499
- Water-Quality Impact Assessment for Hydropower, 321

#### Aerial photographs

#### Alfalfa

- CO<sub>2</sub>-Induced Climatic Changes and Irrigation-Water Requirements, 1050

**Algae**

- Dissolved Oxygen Variations in Marine Fish Culture Zone, 363
- Forecasting of Dissolved Oxygen in Marine Fish Culture Zone, 364

**Algorithms**

- Algorithm for Smoothing Triangulated Surfaces, 58
- DETRANS: Efficient Algorithm for Static Analysis of Determinate Trusses, 35
- Improved Quasi-Newton Methods for Large Nonlinear Problems, 212
- Nonlinear, Incremental Analysis of Mass-Concrete Lock Monolith, 853
- Prestressing Optimization of Concrete Slabs, 760
- Thin-Walled Space Frames. II: Algorithmic Details and Applications, 891

**Alignment**

- Off-Line Spatial Alignment, 975

**Alkaline soils**

- Cable Anchoring of Deteriorated Arch Dam, 689

**Alkalinity**

- Fly Ash and Cation Effects on Free  $\text{Cl}^-$  and  $\text{OH}^-$  Concentrations in Mortars, 671

**Alloys**

- Micromechanism Approach to Model Creep Fatigue Interaction in Lead-Tin Alloy, 182
- Shape-Memory Alloys as New Materials for Aseismic Isolation, 290

**Alluvial channels**

- Modeling Alluvial-Channel Flow by Multimode Characteristics Method, 143
- Numerical Modeling of Aggradation and Degradation in Alluvial Channels, 539

**Alluvial streams**

- Bed Shear Stress and Scour Over Bed-Type River Intake, 494
- River-Meander Model: I. Development, 9
- River-Meander Model: II. Applications, 10
- Sediment Management with Submerged Vanes I: Theory, 484
- Sediment Management with Submerged Vanes. II: Applications, 485
- Wake Vortex Scour at Bridge Piers, 524

**Alluvial valleys**

- Unified Symmetric BEM-FEM for Site Effects on Ground Motion—SH Waves, 272

**Alluvium**

- Flexural Strength of Sand-Reinforced Ice, 42

**Alums**

- Chemical Dosing of Small Water Utilities Using Regression Analysis, 331

**Amplification**

- Probabilistic Amplification Factors for Response Spectra, 888

**Anaerobic processes**

- Methanogenic Biotransformation of Chlorinated Hydrocarbons in Ground Water, 313

**Analog models**

- Analog-Beam Method for Determining Shear-Lag Effects, 233

**Analysis**

- Advantages of Management Contracting—Critical Analysis, 93
- Analytic Solution for Dynamic Loading on Half-Space Medium, 228
- Analytical Solution for Density Currents in Settling Basins, 487
- Applications of Compound Strip Method for Folded Plates with Connecting Elements, 762
- Bearing Capacity of Eccentrically Obliquely Loaded Footing, 449
- Compound Strip Method for Folded Plates with Connecting Elements, 761
- Ditch Drainage in Layered Soils, 581
- Fracture Analysis of Ice Forces, 52
- Improved Code-Type Earthquake Analysis Procedure for Buildings, 12
- Motion of Dense Thermals on Incline, 564
- Nonholonomic Analysis of Elastoplastic Frames, 302
- Piecewise Linear Behavior of RC Beams with Openings, 840
- Quasi-Newton Method for Reinforced-Concrete Column Analysis and Design, 783
- Seasonal and Long-Term Variations of Dissolved Solids in Lakes and Reservoirs, 6
- Toward Compression-Field Analysis of Reinforced Concrete Solids, 848

**Analytical techniques**

- Analytical Modeling of Bonded Bars under Cyclic Loads, 749
- Simple Methods for Predicting Flow to Drains, 629

**Anchorage**

- Analytical Modeling of Bonded Bars under Cyclic Loads, 749
- Cable Anchoring of Deteriorated Arch Dam, 689
- Uplift Behavior of Screw Anchors in Sand. I: Dry Sand, 405

**Anchors**

- Anchor Design for Slope Stabilization by Surface Loading, 431
- Anchors in the Desert, 1232
- Helical Anchors in Dry and Submerged Sand Subjected to Surcharge, 439
- Passive Inclined Anchorages in Sand, 407
- Uplift Behavior of Screw Anchors in Sand. I: Dry Sand, 405
- Uplift Behavior of Screw Anchors in Sand. II: Hydrostatic and Flow Conditions, 406

**Anemometers**

- Turbulence Intensity of Mixing in Relation to Flocculation, 358
- Turbulent Structure in Compound Open-Channel Flows, 468

**Angle section**

- Stitch Spacing and Local Buckling in Seismic-Resistant Double-Angle Braces, 887

**Anion exchange**

- Acidification Potential of Snowpack in Sierra Nevada, 342

**Anisotropic plates**

- Buckling of Anisotropic Composite Plates under Stress Gradient, 157

## Anisotropic soils

### Anisotropic soils

Anisotropic Hardening Plasticity Model for Sands, 412

### Anisotropy

Elastodynamic Green's Functions of Orthotropic Half Plane, 174

Stability Evaluation During Staged Construction, 395

Surface Loading of Anisotropic Rock Masses, 456

### Antennas

Estimation of Extreme Winds from Short-Term Records, 766

### Application methods

Robust Optimal Design for Wastewater Treatment. Part II: Application, 340

### Approximation

Impact of Drag-Force Approximations on Spectral Wave-Force Predictions, 1121

### Approximation methods

Approximate Methods and Verification Procedures of Structural Analysis and Design, 1246

Buckling of Anisotropic Composite Plates under Stress Gradient, 157

Estimating Seismic Base Shears of Tall Wall-Frame Buildings, 919

Nonlinear Impact and Chaotic Response of Slender Rocking Objects, 261

Reservoir Operations by Successive Linear Programming, 1057

Snap-Through of a Clamped-Free Beam Column, 297

### Aquariums

Under the Undersea World, 1123

### Aquatic environment

Dissolved Oxygen Variations in Marine Fish Culture Zone, 363

Forecasting of Dissolved Oxygen in Marine Fish Culture Zone, 364

### Aquatic habitats

Dissolved Oxygen Variations in Marine Fish Culture Zone, 363

Forecasting of Dissolved Oxygen in Marine Fish Culture Zone, 364

### Aquatic plants

Vegetated Submerged Beds with Artificial Substrates. I: BOD Removal, 337

Vegetated Submerged Beds with Artificial Substrates. II: N and P Removal, 338

### Aquifers

Aquifer Restoration: Which Method?, 1161

Drainage of Clay Overlying Artesian Aquifer. I: Hydrologic Assessment, 585

Drainage of Clay Overlying Artesian Aquifer. II: Technical Analysis, 586

Identification of Aquifer's Well-Pumpage Histories, 1067

Irrigation and Drainage, 1276

Leakage of Clogged Channels that Partially Penetrate Surficial Aquifers, 496

Mass Transport Modeling in Contaminated Buried-Valley Aquifer, 1056

On Management of Ground Water in Ross Creek Basin, Alberta, Canada, 1052

## 1991 ASCE TRANSACTIONS

Optimal Configuration and Scheduling of Ground-Water Tracer Test, 1044

Unconfined Flow Through Porous Media Using B-Spline Boundary Elements, 557

Using Regional Ground-Water Model in Water Resource Planning, 1068

Vertical Leakage in Egypt's Nile Valley: Estimation and Implications, 602

### Arbitration

Avoiding and Resolving Disputes during Construction: Successful Practices and Guidelines, 1249

### Archaeology

Construction Contract Provisions for Preservation of Artifacts, 87

### Arches

Analysis of Blast-Loaded, Buried RC Arch Response. Part I: Numerical Approach, 758

Analysis of Blast-Loaded, Buried RC Arch Response. Part II: Application, 759

Buckling Behavior of Elastic Circular Arches, 294

Finite-Element Nonlinear Analysis of Stressed-Arch Frames, 907

General Equations for Buckling of Thin, Shallow Arches of Any Shape, 155

Microtunneling MARTA, 1235

Nonlinear Curved-Beam Element for Arch Structures, 944

Sandwich-BarrellShell Construction by Inflation, 89

### Architect/engineers

Redefining Marketing Activity, 653

### Architecture

Structural Aesthetics, 1228

### Arizona

Sending Steel Down the River, 1127

### Armor units

Performance of Bermed Revetments, 1114

Stability of Mound Breakwater's Head and Trunk, 1116

### Artificial intelligence

Development of Prototype Expert System for Roadside Safety, 1007

Expert Systems: Manager's Perspective, 642

Extending Artificial Intelligence Techniques for Hierarchical Planning, 80

Knowledge-Based Modeling of Material Behavior with Neural Networks, 149

Knowledge-Based Planning System, 81

Neural Networks as Tools in Construction, 119

Project-Specific Knowledge Bases in AEC Industry, 55

Rule-Based Design of Layout of Rural Natural Gas Networks, 71

Toward Intelligent Traffic Signal Design System, 1013

### Artificial recharge

Ground Water in the Pacific Rim Countries, 1268

### ASCE Awards & Prizes

Beam-Column Moment Connections for Composite Frames: Part 1, 13

## SUBJECT INDEX

## Automation

- Role for Decision-Support Systems in Water-Delivery Design, 1079
- Tomorrow's Toll Road, 1138
- Total Productivity Measurement in Bus Transit: Comment, 1026

Wisconsin Public Service Corporation Geofacilities Information System, 976

#### Automobiles

Future Fill-Up, 1199

#### Auto-regressive models

Adaptive Identification of Autoregressive Processes, 225

Robust AR Representations of Ocean Spectra, 309

#### Axial forces

Buckling of Columns with Overhang, 284

#### Axial loads

Behavior of Reinforced Concrete Structures Subjected to Uniaxial Excitation, 897

Design of Piles in Permafrost Under Combined Lateral and Axial Load, 48

Dynamic Soil Reaction to Axially Loaded Piles, 418

Finite-Layer Analysis of Axially Loaded Piles, 451

Quasi-Newton Method for Reinforced-Concrete Column Analysis and Design, 783

Two-Level Approach to Design of Short Concrete Columns, 949

#### Axisymmetry

Axisymmetric Pressures and Thermal Gradients in Conical Missile Tips, 33

Simple Elastic Analysis of Axisymmetric Cylindrical Storage Tanks, 930

#### Back pressure

Effects of Saturation and Back Pressure on Sand Liquefaction, 434

#### Backfills

Large-Scale Model Test on Square Box Culvert Backfilled with Sand, 378

Technique for Using Fine-Grained Soil in Reinforced Earth, 426

#### Backwater

Backwater Curves in Circular Channels, 580

Shock Fitting of Aggradational Profiles Due to Backwater, 538

#### Baffles

Internal-Wave Action in Gravity Clarifier, 341

#### Ballast

ATSF 1980 El Dorado Line Change Failure/ Rehabilitation, 427

#### Banding

Orientation of Shear Bands in Frictional Soils, 227

#### Bank erosion

Piping/Sapping Erosion. I: Basic Considerations, 531

Piping/Sapping Erosion. II: Identification-Diagnosis, 532

Sediment Management with Submerged Vanes I: Theory, 484

Sediment Management with Submerged Vanes. II: Applications, 485

#### Barges

Sending Steel Down the River, 1127

#### Barrier islands

Simple Conceptual Explanation of Down-Drift Offset Inlets, 1092

#### Barriers

Advisory System for Design of Highway Safety Structures, 1006

Design of Wave Barriers for Reduction of Horizontal Ground Vibration, 396

Development of Control Structure for Micro-Based Expert System, 77

Development of Prototype Expert System for Roadside Safety, 1007

Simplified Design for Vibration Screening by Open and In-Filled Trenches, 373

#### Bars

Analytical Modeling of Bonded Bars under Cyclic Loads, 749

Laboratory Study of Wave-Breaking Over Bars and Artificial Reefs, 1103

Numerical Model of Longshore Current for Bar and Trough Beaches, 1104

Role of Stirrups and Residual Tensile Strength of Cracked Concrete on Bond, 746

Volumetric Rock Quality Designation, 433

#### Base isolation

Active Control and Seismic Isolation, 269

Analysis of Infinite-Strip-Shaped Base Isolator with Elastomer Bulk Compression, 244

Aseismic Hybrid Control Systems for Building Structures, 190

Base Isolation Benefits of 3-D Rocking and Uplift. I: Theory, 141

Base Isolation Benefits of 3-D Rocking and Uplift. II: Numerical Example, 142

Experimental Study of Friction-Pendulum Isolation System, 817

Further Results on Frictional Properties of Teflon Bearings, 781

Nonlinear Dynamic Analysis of 3-D-Base-Isolated Structures, 865

Performance of Sliding Resilient-Friction Base-Isolation System, 756

Shaking-Table Study of Base Isolation for Masonry Buildings, 934

Studies on Seismic Isolation of Buildings, 933

Study of Sliding Bearing and Helical-Steel-Spring Isolation System, 820

#### Basins

Designing Treatment Basin Dimensions to Reduce Cost, 336

HGL Elevation at Pipe Exit of USBR Type VI Impact Basin, 527

On Management of Ground Water in Ross Creek Basin, Alberta, Canada, 1052

Putting It Back, 1218

#### Battens

Bond Strength in Battened Composite Columns, 786

#### Bauschinger effect

Material Effects—Statistics of Steel Tube Struts, 764

#### Bayesian analysis

Bayesian Reasoning Shell for Land Management. I: Structure and Function, 69

Bayesian Reasoning Shell for Land Management. II: Implementation, 70

**Beach erosion**

- Longshore Currents in Two Laboratory Studies: Relevance to Theory, 1087
- Working Breakwaters, 1221

## SUBJECT INDEX

## Clay structure

- Hydraulic Jump in Sloping Channels, 525  
Instability in Simulated Granular Chute Flows, 279  
Leakage of Clogged Channels that Partially Penetrate Surficial Aquifers, 496  
Normal-Depth Calculations in Complex Channel Sections, 583  
Optimal Spacing of Tube Wells in Relation to Channel Losses and Lining, 622  
Uniform Aerated Chute Flow, 499
- Chaos**  
Chaotic Motion of Pendulum with Support in Circular Orbit, 161  
Chaotic Motions of Self-Excited Forced and Autonomous Square Prisms, 156  
Nonlinear Impact and Chaotic Response of Slender Rocking Objects, 261  
Periodic and Chaotic Oscillations of Modified Stoker Column, 259
- Characteristics**  
ASCE's Student Chapters: Statistical Analyses of Key Characteristics, 732  
Engineering Properties of Incinerator Residue, 324  
Local Scour Downstream of Box-Culvert Outlets, 596
- Chemical reactions**  
Inhibition of Acetate Methanogenesis by Phenols, 343  
Methanogenic Biotransformation of Chlorinated Hydrocarbons in Ground Water, 313
- Chile**  
Collapse of Eight-Story RC Building During 1985 Chile Earthquake, 780
- China, People's Republic of**  
Tangshan Earthquake: Performance and Retrofit of Industrial Facilities, 699
- Chlorides**  
Fly Ash and Cation Effects on Free  $\text{Cl}^-$  and  $\text{OH}^-$  Concentrations in Mortars, 671  
Mass Transport Modeling in Contaminated Buried-Valley Aquifer, 1056
- Chlorinated hydrocarbon pesticides**  
GAC Adsorber Design for Removal of Chlorinated Pesticides, 315
- Chlorination**  
Chlorinated Solvent Biodegradation by Methanotrophs in Unsaturated Soils, 346
- Chlorine**  
Estimating Biotransformation Rate Constants for Sequential Reductive Dehalogenation Reactions, 351  
Kinetics of Manganese(II) Oxidation with Chlorine, 334
- Cisterns**  
Numerical Simulation of Deep-Well Wet Oxidation Reactor Using Steam, 188
- Civil engineering**  
The Challenge: Recruiting Students to Civil Engineering, 709  
Engineering Design in Developing Nations: Are Foreign Standards Adequate?, 738  
Pounds, Kilos and Newtons, 1212
- Professionalism and Marketing of Civil Engineering Profession, 708  
Transactions of the American Society of Civil Engineers 1990, 1299  
What Should We Teach Civil Engineering Students?, 734
- Civil engineers**  
ASCE Salary Survey 1991, 1248  
A Biographical Dictionary of American Civil Engineers, 1250  
The Development of the Construction Engineer: Past Progress and Future Problems, 104  
Earthbound Civil Engineering Experience for Space Applications, 39  
Factors Affecting Professional Employee Retention, 646  
Professionalism and Marketing of Civil Engineering Profession, 708
- Cladding**  
Cladding Design: Whose Responsibility?, 701  
Durability and Integrity of Marble Cladding: A State-of-the-Art Review, 694
- Claims**  
Avoiding and Resolving Disputes during Construction: Successful Practices and Guidelines, 1249  
Highway Elements Associated with Tort Liability Actions, 985  
Protecting Engineer Against Construction Delay Claims: NDC, 655  
Total Float Traded as Commodity, 126
- Clarifiers**  
Clarifier-Sludge-Blanket Behavior at Industrial Activated-Sludge Plant, 357  
Internal-Wave Action in Gravity Clarifier, 341
- Classification**  
Hydrodynamic Classification of Submerged Multiport-Diffuser Discharges, 537  
Hydrodynamic Classification of Submerged Single-Port Discharges, 536  
Trenchless Excavation Construction Methods: Classification and Evaluation, 113  
Volumetric Rock Quality Designation, 433
- Clay liners**  
Diffusion in Saturated Soil. I: Background, 392  
Diffusion in Saturated Soil. II: Results for Compacted Clay, 393  
Smooth HDPE-Clay Liner Interface Shear Strengths: Compaction Effects, 400
- Clay soils**  
Behavior and Design of Gravity Earth Retaining Structures, 2  
Diffusion in Saturated Soil. I: Background, 392  
Diffusion in Saturated Soil. II: Results for Compacted Clay, 393  
Gas Entrapment in Granular Lenses in Silt-Clay Matrix, 408  
Integration of Constitutive Equations in Soil Plasticity, 243
- Clay structure**  
Structural Analysis by Distinct Element Method, 266

**Clays**

- ATSF 1980 El Dorado Line Change Failure/  
Rehabilitation, 427
- Bearing Capacity of Clays whose Cohesion Increases  
Linearly with Depth, 387
- Clay-Blended Sludge as Lightweight Aggregate  
Concrete Material, 365
- Critical Filters for Impervious Soils, 16
- Cyclic Loading of Silty Clay with Drainage Periods,  
388
- Drainage of Clay Overlying Artesian Aquifer. I:  
Hydrologic Assessment, 585
- Drainage of Clay Overlying Artesian Aquifer. II:  
Technical Analysis, 586
- Effect of Lateral Stress on CPT Penetration Pore  
Pressures, 422
- Effect of Soil Plasticity on Cyclic Response, 374
- Effect of Water-Content Variability in Design of Clay  
Embankments, 399
- Embankment Design on Soft Clays, 450
- Expansion of Compacted Gravelly Clay, 415
- Fabric of Field- and Laboratory-Compacted Clay,  
464
- Hyperbolic Method for Consolidation Analysis, 452
- Hyperconcentrated Flow and Sediment Transport at  
Steep Slopes, 554
- Laboratory Study of Pressuremeter Tests in Clays,  
444
- Mechanisms of Strength Loss in Stiff Clays, 377
- Microplane Model for Triaxial Deformation of  
Saturated Cohesive Soils, 411
- Modeling One-Dimensional Compression  
Characteristics of Soils, 379
- Piping and Erosion Tests at Conner Run Dam, 375
- Pollutant Migration through Liner Underlain by  
Fractured Soil, 462
- Setting Time Effects on Bentonite Water-Well  
Annulus Seals, 603
- Smear Effects of Vertical Drains on Soft Bangkok  
Clay, 442
- Stability Evaluation During Staged Construction, 395
- Stress Ratio Effects on Collapse of Compacted  
Clayey Sand, 402
- Client relationships**  
Maintaining Existing Clients, 635
- Climatic changes**  
Climatic Considerations in New AASHTO Flexible  
Pavement Design, 991
- Climatic Sensitivity of California Water Resources,  
1048
- CO<sub>2</sub>-Induced Climatic Changes and Irrigation-Water  
Requirements, 1050
- Local Government and Public Adaptation to Sea-  
Level Rise, 1038
- Climatic data**  
Evapotranspiration Estimation for Data-Short  
Environment, 576
- Sensitivity of Reservoir Sizing to Evaporation  
Estimates, 589
- Climatology**  
FAO-24 Reference Evapotranspiration Factors, 619

**Clogging**

- Characteristics of Constrained Cavitating Bluff Body  
Wakes, 170
- Dripper-Clogging Factors in Wastewater Irrigation,  
624
- Leakage of Clogged Channels that Partially Penetrate  
Surficial Aquifers, 496
- Closed conduits**  
Methods of Measuring Pumpage Through Closed-  
Conduit Irrigation Systems, 618
- Closed form solutions**  
Analysis of Adhesive-Bonded Joints with  
Nonidentical Adherends, 175
- Effect of Dead Loads on Natural Frequencies of  
Beams, 806
- Evaporative Drying of Dredged Material, 1098
- Cnoidal waves**  
Intercomparison of Truncated Series Solutions for  
Shallow Water Waves, 1093
- Coagulation**  
Predicting Organic Accumulation in Sediments Near  
Marine Outfalls, 18
- Coastal engineering**  
Alongshore Sediment Transport Rate, 1120
- The California Coastal Zone Experience, 1252
- Coastal Engineering—Proceedings, 1254
- Coastal Wetlands, 1256
- Coastal Zone '91, 1257
- Coastlines of Japan, 1258
- Coastlines of the Caribbean, 1259
- Comparison of Spectral Refraction and Refraction-  
Diffraction Wave Models, 1097
- Flexible Floating Breakwater, 1109
- Horizontal Salinity Gradient Effects in Apalachicola  
Bay, 1110
- Intercomparison of Truncated Series Solutions for  
Shallow Water Waves, 1093
- Measured and Predicted Wave Forces on Offshore  
Platforms, 1113
- Twenty-Second Coastal Engineering Conference,  
1300
- Coastal environment**  
The California Coastal Zone Experience, 1252
- Coastal Engineering—Proceedings, 1254
- Coastal Sediments '91: Volume I & II, 1255
- Coastal Zone '91, 1257
- Coastlines of Japan, 1258
- Coastlines of the Caribbean, 1259
- Local Government and Public Adaptation to Sea-  
Level Rise, 1038
- Predicting Organic Accumulation in Sediments Near  
Marine Outfalls, 18
- Twenty-Second Coastal Engineering Conference,  
1300
- Coastal management**  
Biological and Physical Aspects of Dredging, Kings  
Bay, Georgia, 1251
- The California Coastal Zone Experience, 1252
- Coastal Engineering—Proceedings, 1254
- Coastal Wetlands, 1256

Coastal Zone '91, 1257  
 Coastlines of Japan, 1258  
 Coastlines of the Caribbean, 1259  
 Local Government and Public Adaptation to Sea-Level Rise, 1038  
**Coastal plains**  
 Drainage-Subirrigation Effect on Water Quality in Georgia Flatwoods, 577  
**Coastal processes**  
 Coastal Sediments '91: Volume I & II, 1255  
 Simple Conceptual Explanation of Down-Drift Offset Inlets, 1092  
 Twenty-Second Coastal Engineering Conference, 1300  
**Coastal structures**  
 Coastal Engineering—Proceedings, 1254  
 Stability of Mound Breakwater's Head and Trunk, 1116  
 Twenty-Second Coastal Engineering Conference, 1300  
 Wave Forces on Wall, 1089  
**Coating**  
 Corrosion Below: Sewer Structures, 1206  
 A New Look at Galvanized Bridges, 1186  
**Codes**  
 Codification of Design Load Criteria Subject to Modeling Uncertainty, 917  
 Engineering Design in Developing Nations: Are Foreign Standards Adequate?, 738  
**Coefficients**  
 Confidence Interval for Design Floods with Estimated Skew Coefficient, 520  
 Significance of Keulegan-Carpenter Parameter, 567  
**Cohesion**  
 Bearing Capacity of Clays whose Cohesion Increases Linearly with Depth, 387  
 Effect of Biofilm Accumulation on Colloid Cohesion, 356  
**Cohesionless soils**  
 Improved Design Procedures for Vertically Loaded H-Piles in Sand, 394  
 Passive Inclined Anchorages in Sand, 407  
 Performance Assessment of Tunnels in Cohesionless Soils, 461  
**Cohesive soils**  
 Microplane Model for Triaxial Deformation of Saturated Cohesive Soils, 411  
**Cold regions**  
 Cold Regions Engineering, 1260  
 Extreme Ice Properties, 45  
 Flexural Strength of Sand-Reinforced Ice, 42  
 Freezing Out Sludge, 1230  
 Predicting Ice-Structure Interactive Forces, 46  
**Cold weather construction**  
 Cold Regions Engineering, 1260  
 Flexural Strength of Sand-Reinforced Ice, 42  
**Cold weather operations**  
 Cold Regions Engineering, 1260

**Cold-formed steel**  
 Effect of Residual Stress on Cold-Formed Steel Column Strength, 841  
 Elasto-Plastic Interaction Buckling of Cold-Formed Channel Columns, 878  
 Finite Strip Method for Analysis of Cold-Formed Purlins, 152  
 Specification for the Design of Cold-Formed Stainless Steel Structural Members (ANSI/ASCE 8-90), 1294  
 Thin-Walled, Cold-Formed Steel Composite Beams, 914  
 T-Joints in Rectangular Hollow Sections Subject to Combined Actions, 877  
 Uplift Capacity of Z-Purlins, 814  
**Coliforms**  
 Investigation of Beach Contamination Using Tracer, 316  
**Collapse**  
 Cascading River Outfall Structure for Cooling-Water Discharge System, 697  
 Collapse Behavior and Strength of Steel Silo Transition Junctions. Part I: Collapse Mechanics, 950  
 Collapse Behavior and Strength of Steel Silo Transition Junctions. Part II: Parametric Study, 951  
 Collapse of Eight-Story RC Building During 1985 Chile Earthquake, 780  
 Collapse of Metal Building System During Erection, 704  
 Cracking and Failure Analysis of Masonry Arch Bridges, 842  
 Incremental Collapse of Structures with Constant Plus Cyclically Varying Loads, 852  
 Performance Assessment of Tunnels in Cohesionless Soils, 461  
 Shear Strength of Open-Web Plate Girders with Inclined Tension Bars, 296  
 Strength of Welded Steel Silo Hoppers Under Filling and Flow Pressures, 893  
**Collapse load**  
 Undrained Stability of Shallow Square Tunnel, 425  
**Collapsible soils**  
 Sample Disturbance of Cemented Collapsible Soils, 403  
 Stress Ratio Effects on Collapse of Compacted Clayey Sand, 402  
**Collisions**  
 Interactions of Two Settling Spheres: Settling Rates and Collision Efficiency, 545  
 Traffic Conflicts in Expressway Merging, 1020  
**Colorado**  
 The Long Climb to Remediation, 1157  
 Multicriterion Strategic Planning for Improved Irrigation Delivery. II: Application, 631  
**Columns**  
 Analysis of Built-up Timber Columns Using Matrix Progression Method, 858  
 Behavior of RC Frame Strengthened Using Structural Steel Bracing, 811  
 Bond Strength in Battered Composite Columns, 786

- Bounding Surface Model for Cyclic Biaxial Bending of RC Sections, 299
- Buckling of Columns with Overhang, 284
- Buckling of Restrained Columns with Shear Deformation and Axial Shortening, 255
- Buckling of Variable Cross-Section Columns: Integral-Equation Approach, 886
- Cold-Formed Steel Channel Struts, 821
- Column Design in Gravity-Loaded Frames, 831
- Concrete Columns with Lateral Prestressing, 145
- Effect of Residual Stress on Cold-Formed Steel Column Strength, 841
- Elasto-Plastic Interaction Buckling of Cold-Formed Channel Columns, 878
- High-Strength RC Connections Subjected to Inelastic Cyclic Loading, 794
- Integral Equation for Dynamic Poroelectricity in Frequency Domain with BEM Solution, 208
- Interaction of Local and Overall Instability of Compressed Box Columns, 935
- Large Water-Hammer Pressures for Column Separation in Pipelines, 548
- Microcomputer Structural Member and Frame Design by LRFD, 62
- Microlevel Study of Integration in High-Strength Concrete Innovation, 99
- Quasi-Newton Method for Reinforced-Concrete Column Analysis and Design, 783
- RC Column Model for Inelastic Seismic Response Analysis in 3D, 300
- Reinforcing Soft Soils with Artificially Cemented Compacted-Sand Columns, 420
- Reliability Assessment of RC Column under Stochastic Stress, 932
- Stability of Built-up Columns, 219
- Stability of Nonconservative Systems Using Eigenvalue Sensitivity, 198
- Tests of High-Strength Concrete Columns with Intervening Floor Slabs, 832
- Columns, supports**
- Free-Vibration Response of Column-Supported, Ring-Stiffened Cooling Tower, 186
- Two-Level Approach to Design of Short Concrete Columns, 949
- Combined sewers**
- CSO Solutions, 1137
- Communication**
- Effective Conference Presentations, 745
- 'Hardwiring' Coordination Among Land-Use and Transportation Agencies, 1040
- The Human Factor in Failures, 1148
- Improving Highway Specifications for Constructibility, 96
- Keys to Better Meetings, 1140
- Modern Communication as Training Aid, 659
- Organizing for Quality: Matrix Organization, 645
- Communication skills**
- Effective Conference Presentations, 745
- Keys to Better Meetings, 1140
- Community goals**
- Method for Locally Adapted Water-Pollution Abatement in Lake Mjøsa, Norway, 1066

**Community planning**

- Wheel of Misfortune: Lottery/Auction Mechanism for Siting of Noxious Facilities, 139

**Community relations**

- Is It Good Business to Be a Citizen Engineer?, 5
- Politics and Engineering, 4
- Seattle's Good Neighbor Policy, 1237

**Community support**

- Seattle's Good Neighbor Policy, 1237

**Compacted soils**

- Diffusion in Saturated Soil. I: Background, 392
- Diffusion in Saturated Soil. II: Results for Compacted Clay, 393
- Estimation Earth Pressures Due to Compaction, 458
- Expansion of Compacted Gravelly Clay, 415
- Fabric of Field- and Laboratory-Compacted Clay, 464

**Compaction**

- Densification of Gravelly Sand Fill Using Intensive Surface Compaction, 423
- Estimation Earth Pressures Due to Compaction, 458
- Excavating, OSHA-Style, 1238
- Fabric of Field- and Laboratory-Compacted Clay, 464
- Rapid Water Content by Computer-Controlled Microwave Drying, 376
- Smooth HDPE-Clay Liner Interface Shear Strengths: Compaction Effects, 400
- Stress Ratio Effects on Collapse of Compacted Clayey Sand, 402

**Comparative studies**

- Comparisons of Selected Bed-Material Load Formulas, 530
- Electronic Theodolites: Comparison Test, 962
- Experiment on Accuracy of Optical Theodolites, 974
- Extremal Wave Statistics Using Three Hindcasts, 1088
- Finite Element Analyses of HDR-4 Excavation, 446
- Large-Scale Model Test on Square Box Culvert Backfilled with Sand, 378
- Measurement of Regular Wave Reflection, 1115
- North American and British Long-Span Bridge Loads, 916
- Overland Flow from Solitary Waves, 1100

**Compatibility**

- Consistent Frame Buckling Analysis by Finite Element Method, 807

**Compensation**

- Wheel of Misfortune: Lottery/Auction Mechanism for Siting of Noxious Facilities, 139

**Competition**

- Construction Management with AutoCAD, 651
- From U.S. Engineer to World Engineer, 662
- International Training Survey of U.S. Engineers and Constructors, 710
- Rethinking the Competitive Bid, 1128

**Competitive bidding**

- Ft. Drum Estimating and Bidding from Contractor's Point of View, 116
- Rethinking the Competitive Bid, 1128

**Compliance**

Forced Vertical Vibration of Rigid Discs with Arbitrary Embedment, 287

**Composite beams**

Behavior of Composite Beam Frame by Pseudodynamic Testing, 824

Shear Strength of Composite Plate Girders with Web Cutouts, 857

Ultimate Bending Strength of Composite Beams, 684

**Composite columns**

Microlevel Study of Integration in High-Strength Concrete Innovation, 99

Reliability of Short Composite Beam-Column Strength Interaction, 880

**Composite masonry**

Numerical Modeling of Creep in Composite Masonry Walls, 872

**Composite materials**

Advanced Composites Materials in Civil Engineering Structures, 1242

Buckling of Anisotropic Composite Plates under Stress Gradient, 157

Cracks Interacting with Particles or Fibers in Composite Materials, 235

Creep Model for Metallic Composites Based on Matrix Testing, 176

Effect of Interphases on Mechanical Behavior of Composites, 293

Elastodynamic Green's Functions of Orthotropic Half Plane, 174

Fiber Pullout and Bond Slip. I: Analytical Study, 905

Fiber Pullout and Bond Slip. II: Experimental Validation, 906

Innovative Prestressing with FRP Sheets: Mechanics of Short-Term Behavior, 237

Large Deflections of Orthotropic Plates in Compression, 265

Microcrack Propagation Study of Concrete Under Compression, 178

Mixed Experimental-Structural Model for Interlaminar Shear Fracture Toughness, 26

Nonlinear Deformation of Laminated Composites, 158

RC Beams Strengthened with GFRP Plates. I: Experimental Study, 939

Reliability of Nonlinear Wood Composites in Bending, 845

Stress and Deflection Analysis of Composite Cantilevered Shallow Shells, 193

**Composite structures**

Beam-Column Moment Connections for Composite Frames: Part 1, 13

Beam-Column Moment Connections for Composite Frames: Part 2, 14

Bond Strength in Battened Composite Columns, 786

Composite Plates of Concrete Slabs and Steel Plates, 301

Crack Arrest and Residual Strength of Composite Panels with Softening Strips, 24

Delamination Analysis for Laminated Composites. I: Fundamentals, 31

Delamination Analysis for Laminated Composites. II: Numerical Verification, 32

Effect of Tendon-Area Loss on Flexural Behavior of P/C Beams, 812

Landfill Liners from Top to Bottom, 1234

LRFD For Steel and Composite Beams with Web Openings, 11

Optimum Design of Composite Hybrid Plate Girders, 868

Plane-Strain-Wave Scattering by Cracks in Laminated Composite Plates, 241

Plastic Highway Bridges, 1189

Postbuckling of Orthotropic Rectangular Plates in Biaxial Compression, 209

RC Beams Strengthened with FRP Plates. II: Analysis and Parametric Study, 940

Strength and Behavior of Grouted Pile-To-Sleeve Connections, 889

Stresses in Orthotropic Laminate with Two Elastic Pins Having Different Fitting Tolerances, 222

Thin-Walled, Cold-Formed Steel Composite Beams, 914

**Composting**

Burying by the Bale, 1196

Composting: Computing the Right Recipe, 1177

**Compound strip method**

B-Spline Compound Strip Formulation for Braced Thin-Walled Structures, 823

**Compressibility**

Analysis of Infinite-Strip-Shaped Base Isolator with Elastomer Bulk Compression, 244

**Compression**

Buckling of Anisotropic Composite Plates under Stress Gradient, 157

Large Deflections of Orthotropic Plates in Compression, 265

Microcrack Propagation Study of Concrete Under Compression, 178

Micromechanical Damage Models for Brittle Solids. Part II: Compressive Loadings, 230

Modeling One-Dimensional Compression Characteristics of Soils, 379

Stereophotogrammetry and Localization in Concrete under Compression, 226

**Compression tests**

Delamination Analysis for Laminated Composites. II: Numerical Verification, 32

**Compressive strength**

Clay-Blended Sludge as Lightweight Aggregate Concrete Material, 365

Compressive Strength Test for Low-Strength Cement Blocks, 797

Properties of Cement Made from Sludge, 325

Review of Variables that Influence Measured Concrete Compressive Strength, 670

Superplasticized Structural Concrete Containing High Volume of Class C Fly Ash, 136

**Computation**

Behavior of Reinforced Concrete Structures Subjected to Uniaxial Excitation, 897

Behavior of Reinforced Concrete Structures Subjected to Biaxial Excitation, 898

Calculation of Total Conveyance in Natural Channels, 518

Computation of Horizontal/Level Distances, 970  
 Cubic-Spline Interpolation in Lagrangian Advection Computation, 483  
 Macrostrip for Variable Section Plates, 849  
 Mechanics Computing in 1990's and Beyond, 1280  
 Probability Approximations by Log Likelihood Maximization, 167  
 Pyramid Frustum Formula for Computing Volumes at Roadway Transition Areas, 969  
 Reaeration Equations and Waste-Load Allocations, 327  
 Wind-Induced Motions of Deer Isle Bridge, 936  
**Computer aided drafting (CAD)**  
 Algorithm for Smoothing Triangulated Surfaces, 58  
 Breaking Down the Barriers, 1172  
 CADD for Export, 1176  
 Computer-Aided System for Ground-Water Resources Management, 68  
 Computing in Civil Engineering and Symposium on Data Bases, 1261  
 Connecting With DOTs, 1171  
 Construction Management with AutoCAD, 651  
 Effective Automation for Structural Design, 61  
 Integrating CAD with Construction-Schedule Generation, 57  
 Integration of Engineering, Design, and Construction, 129  
 Right-of-Way Plats Developed on Computer-Aided Design Drafting System, 977  
**Computer aided instruction**  
 Computer-Aided Education in Structural Dynamics, 75  
 Strategy for Design of Intelligent Tutoring Systems, 66  
**Computer analysis**  
 Bayesian Reasoning Shell for Land Management. II: Implementation, 70  
 Breaking Down the Barriers, 1172  
 Dynamic Characteristics of Tainter Gates and Their Optimization, 931  
 Dynamic Scene Modeling for Automatic Traffic Data Extraction, 981  
 Expert Tower Analysis and Design System. II: Search Strategies and Learning, 65  
 Probing the Golden Gate, 1173  
**Computer applications**  
 Analysis of Built-up Timber Columns Using Matrix Progression Method, 858  
 Bayesian Reasoning Shell for Land Management. I: Structure and Function, 69  
 Bayesian Reasoning Shell for Land Management. II: Implementation, 70  
 Comparison of Spectral Refraction and Refraction-Diffraction Wave Models, 1097  
 A Computerized Completion, 1147  
 Computer-Monitored Grouting, 1163  
 Computing in Civil Engineering and Symposium on Data Bases, 1261  
 Consolidation Settlement of Bridge Approach Foundation, 381  
 Continuous-Beam Analysis for Highway Bridges, 751

Data-Base Management System Technology and Geographic Information Systems, 963  
 Effect of Imperfections on Lattice Shells, 851  
 Electronic Computation, 1264  
 Fuzzy Decision Making in Dredged-Material Management, 350  
 GIS and Transportation: Canadian Perspective, 972  
 GIS Plans Wastewater Future, 1227  
 Ground-Water Modeling Without Fear, 1209  
 Hypertext Data Base Applications in Construction, 109  
 Institutional Issues: Local Perspective, 973  
 Integrating CAD with Construction-Schedule Generation, 57  
 Integration of Engineering, Design, and Construction, 129  
 Managing Problems Associated with Using Computer Programs, 660  
 Neural Networks as Tools in Construction, 119  
 Nonholonomic Analysis of Elastoplastic Frames, 302  
 Parallel Computing Solution of Coupled Flow Processes in Soil, 78  
 Preparing for Construction in the 21st Century, 1283  
 Recent Advances in Instrumentation, Data Acquisition and Testing in Soil Dynamics, 1286  
 Role for Decision-Support Systems in Water-Delivery Design, 1079  
 Simple Methods for Predicting Flow to Drains, 629  
 Solving Turbulent Flows Using Finite Elements, 559  
 Waterpower '91: A New View of Hydro Resources, 1304  
**Computer graphics**  
 Computer-Aided Education in Structural Dynamics, 75  
 Computer-Aided System for Ground-Water Resources Management, 68  
 Computer-Generated Explanations in Project Management Systems, 67  
 Triangulation Applications in Volume Calculation, 59  
**Computer models**  
 CADD for Export, 1176  
 Dynamic Model of Pump Station, 367  
 Integration of Engineering, Design, and Construction, 129  
 Irrigation and Drainage, 1276  
 Using Regional Ground-Water Model in Water Resource Planning, 1068  
**Computer programming**  
 Expert Tower Analysis and Design System. I: Architecture and Heuristics, 64  
 Network Design Programming of U.S. Highway Improvements, 1009  
 Programming Techniques: Dynamic Memory Allocation in FORTRAN, 60  
**Computer programming languages**  
 Connecting With DOTs, 1171  
 Programming Techniques: Dynamic Memory Allocation in FORTRAN, 60  
**Computer programs**  
 Analysis of Frames with Nonprismatic Members, 838  
 Application of Least-Squares Land Leveling, 634

- Dynamic-Node-Numbering Concept in Channel Network Model, 572
- Estimation Earth Pressures Due to Compaction, 458
- Finite Strip Method for Analysis of Structures with Material Nonlinearity, 773
- Geometrical Deformation Analysis of Large Concrete Roof Structure, 965
- Managing Problems Associated with Using Computer Programs, 660

Bearing Capacity of Auger-cast Piles in Sand, 386

## SUBJECT INDEX

Permeability of Acrylate, Urethane, and Silicate Grouted Sands with Chemicals, 429

**Grouting**

Computer-Monitored Grouting, 1163

Dam Foundation Grouting, 1262

Fixing Foundations, 1145

Permeability of Acrylate, Urethane, and Silicate Grouted Sands with Chemicals, 429

Setting Time Effects on Bentonite Water-Well Annulus Seals, 603

Strength and Behavior of Grouted Pile-To-Sleeve Connections, 889

**Grouting equipment**

Dam Foundation Grouting, 1262

**Guardrails**

Metal Railing Systems for Buildings: Design Versus Experimental Data, 775

**Guidelines**

AASHTO Rigid Pavement Design Equation Study, 986

Aspects of Highway Superelevation Design, 1019

Avoiding and Resolving Disputes during Construction: Successful Practices and Guidelines, 1249

Delphi Study on Bridge Condition Rating and Effects of Improvements, 999

Design for Successful Hillside Development, 1033

Engineering Code of Ethics: Beneficial Restraint on Consequential Morality, 730

Guide to Post-Earthquake Investigation of Lifelines, 1269

Guide to the Use of the Wind Load Provisions of ASCE 7-88 (formerly ANSI A58.1), 1270

Guideline for Structural Condition Assessment of Existing Buildings (ASCE 11-90), 1271

Guidelines for Electrical Transmission Line Structural Loading, 1272

Managing Technology Transfer: A Practical Framework, 741

Measured and Predicted Wave Forces on Offshore Platforms, 1113

Project Peer Review Guidelines, 1284

Right-of-Way Surveying, 1289

Specification for the Design of Cold-Formed Stainless Steel Structural Members (ANSI/ASCE 8-90), 1294

Traffic Assignment in Practice: Overview and Guidelines for Users, 1018

**Gusts**

Guide to the Use of the Wind Load Provisions of ASCE 7-88 (formerly ANSI A58.1), 1270

**Guyed towers**

Microcomputer Analysis of Guyed Towers as Lattices, 819

**H piles**

Improved Design Procedures for Vertically Loaded H-Piles in Sand, 394

**Half space**

Analytic Solution for Dynamic Loading on Half-Space Medium, 228

Formulas and Charts for Impedances of Surface and Embedded Foundations, 435

## Heat distributing units

Simple Elastic Analysis of Axisymmetric Cylindrical Storage Tanks, 930

**Harbor facilities**

World Marina '91, 1305

**Harbors**

Wave Propagation in Jettied Entrance Channels. I: Models, 1111

Wave Propagation in Jettied Entrance Channels. II: Observations, 1112

**Hardness**

Anisotropic Hardening Plasticity Model for Sands, 412

**Hazardous materials**

Going Where No Man Can Go, 1195

State and Local Issues in Transportation of Hazardous Waste Materials: Towards a National Strategy, 1295

**Hazardous waste**

Diffusion in Saturated Soil. I: Background, 392

Diffusion in Saturated Soil. II: Results for Compacted Clay, 393

Environmental Impact Assessments for Hazardous-Waste Landfills, 1031

Geotechnical Engineering Congress—1991, 1267

Hazardous-Waste Management in Rural Areas, 717

The Long Climb to Remediation, 1157

Permeable Treatment Beds for Plating Sludge Disposal, 347

Pricing Hazardous-Waste Risk Revisited, 663

Reservation Rebirth?, 1160

Smooth HDPE-Clay Liner Interface Shear Strengths: Compaction Effects, 400

**Hazardous waste sites**

Closing Hazardous Landfills, 1156

Environmental Impact Assessments for Hazardous-Waste Landfills, 1031

Fear of Trying, 1153

Permeability of Acrylate, Urethane, and Silicate Grouted Sands with Chemicals, 429

Reservation Rebirth?, 1160

**Head loss**

Design of Rectangular Open-Channel Expansion Transitions, 625

Hydraulic Calculations for Flow in Lock Manifolds, 533

Interactive Computer-Aided Design of Inverted Siphons, 584

Measurement of Irrigation Flows Through Irrigation Turnouts, 608

**Health hazards**

Risk Bureaucracies in Environmental Health and Safety Management, 137

**Health regulations**

Risk Bureaucracies in Environmental Health and Safety Management, 137

Workers' Compensation Issues in Construction, 728

**Heat distributing units**

Leak Location and Repair Cost for Underground Heat Distribution Systems, 995

**Heat exchangers**

Model Tests and Economics of Inflated Evaporative Fabric Cooling Domes, 132

**Heat transfer**

Numerical Simulation of Deep-Well Wet Oxidation Reactor Using Steam, 188

**Heaving**

Limitations of Residential Structures on Expansive Soils, 705

**Helixes**

Helical Anchors in Dry and Submerged Sand Subjected to Surcharge, 439

Uplift Behavior of Screw Anchors in Sand. I: Dry Sand, 405

Uplift Behavior of Screw Anchors in Sand. II: Hydrostatic and Flow Conditions, 406

**Heuristics**

Heuristic for Layout Design of Rural Gas Systems, 72  
Integrated Framework for Deriving Behavior from Structural Descriptions, 76

**High strength bolts**

Concrete Columns with Lateral Prestressing, 145

**High strength concretes**

High-Strength RC Connections Subjected to Inelastic Cyclic Loading, 794

Microlevel Study of Integration in High-Strength Concrete Innovation, 99

Tests of High-Strength Concrete Columns with Intervening Floor Slabs, 832

**High technology**

The Double-Edged Sword of Technological Advancement, 729

Sensor-Integrated Nailing for Building Construction, 94

Tomorrow's Toll Road, 1138

**Highway accident potential**

Effects of Horizontal-Curve Transition Design on Truck Roll Stability, 984

Highway Elements Associated with Tort Liability Actions, 985

**Highway construction**

DBE Programs—New Model, 92

Detection of and Construction at the Soil/Rock Interface, 1263

Double-Decking the Freeways, 1225

Pyramid Frustum Formula for Computing Volumes at Roadway Transition Areas, 969

U.S. Army Corps of Engineers and Afghanistan's Highways 1960–1967, 108

Elastic Properties of Pipe Materials During Hydraulic Transients, 549

#### **Ponds**

Primary Productivity in Sewage Pond: Semiempirical Model, 360

Simulation of Supplemental Irrigation from On-Farm Ponds, 595

#### **Population statistics**

Role of Sociodemographic Characteristics in Projections of Water Use, 1054

User-Specific Water Demand Elasticities, 1045

#### **Pore pressure**

Analysis of Seismic Settlements and Pore Pressures in Centrifuge Tests, 441

Cyclic Loading of Silty Clay with Drainage Periods, 388

Effect of Lateral Stress on CPT Penetration Pore Pressures, 422

Reliability Analysis of Thaw-Induced Pore Pressures, 50

#### **Pore size distribution**

Fabric of Field- and Laboratory-Compacted Clay, 464

New Method for Measuring Pore Size Distributions in Concrete, 685

#### **Pore water pressure**

Consolidation Settlement of Bridge Approach Foundation, 381

Effects of Saturation and Back Pressure on Sand Liquefaction, 434

Finite Element Analyses of HDR-4 Excavation, 446

Probabilistic Analysis of Groundwater Levels in Hillside Slopes, 410

Seismosoil Dynamics of Foundations in Mexico City Earthquake, September 19, 1985, 389

#### **Porosity**

Dielectric Method for Prediction of Porosity of Saturated Soil, 385

Integral Equation for Dynamic Poroelasticity in Frequency Domain with BEM Solution, 208

New Method for Measuring Pore Size Distributions in Concrete, 685

#### **Porous materials**

Friction and Free-Surface Flow over Porous Media, 558

New Method for Measuring Pore Size Distributions in Concrete, 685

#### **Porous media**

Dislocation Analysis of Penetration in Saturated Porous Media, 164

Dynamic Strain Localization in Fluid-Saturated Porous Media, 194

**Portland cements**

New Method for Measuring Pore Size Distributions in Concrete, 685

PCC Pavement Patching Materials and Procedures, 666

Selective Dissolution of Portland-Fly-Ash Cements, 667

**Ports**

Estuary Waterway Projects—Lessons Learned, 1108

**Positioning**

Effect of Sheltering on Spheres in Long Waves, 1101

**Post tensioning**

Anchors in the Desert, 1232

Effects of Banded Post-Tensioning in Prestressed Concrete Flat Slab, 778

Evaluation of L'Ambiance Plaza Post-Tensioned Floor Slabs, 692

**Postbuckling behavior**

Interaction of Local and Overall Instability of Compressed Box Columns, 935

Large Deflections of Orthotropic Plates in Compression, 265

Postbuckling of Orthotropic Rectangular Plates in Biaxial Compression, 209

Shear Strength of Open-Web Plate Girders with Inclined Tension Bars, 296

Simple Model for Shear Capacity of Webs, 768

Snap-Through of a Clamped-Free Beam Column, 297

**Potable water**

GAC Adsorber Design for Removal of Chlorinated Pesticides, 315

**Power spectral density**

Spectral Analysis of Highway Pavement Roughness, 1014

**Powerplants**

Cascading River Outfall Structure for Cooling-Water Discharge System, 697

Global Rural Electrification: A Different Race Initiative, 36

Hennepin County Resource Recovery Facility, 131

Model Tests and Economics of Inflated Evaporative Fabric Cooling Domes, 132

Retrofitting Fossil Plant Facilities Structural Perspectives, 1288

**Precipitation**

Investigation of Precipitation Droughts by Use of Kriging Method, 632

Precipitation Distributions and Green-Ampt Runoff, 633

**Predictions**

Analytical Prediction of Earthquake-Induced Permanent Deformations, 440

Entrainment of Bed Sediment Into Suspension, 493

Extremal Wave Statistics Using Three Hindcasts, 1088

Generalized Model for Lateral Load Slip of Nailed Joints, 668

Prediction of CO Level Near Vehicular Tunnel with Waiting Queue, 317

Short Thin-Walled Cylinders Under Combined Loading, 801

Structural Optimization: Case-Based Approach, 63

**Preloading**

Concentration of Cyclic Stresses in Preloaded Threaded Connections, 215

Evaluating Capacities of GAC Preloaded with Natural Water, 314

**Preservation**

Construction Contract Provisions for Preservation of Artifacts, 87

Historic Dam Rehab: Handle with Care, 1217

West Lake: The Creation of Fort Lauderdale's Central Park, 1036

**Pressure distribution**

Reactive Soil Pressures Along a Pile in Frozen Sand, 53

Strength of Welded Steel Silo Hoppers Under Filling and Flow Pressures, 893

**Pressure measurement**

Elastic Properties of Pipe Materials During Hydraulic Transients, 549

Model-Determined Design Load on Actuator Cover Plate, 501

**Pressure responses**

Characteristics of Constrained Cavitating Bluff Body Wakes, 170

Dislocation Analysis of Penetration in Saturated Porous Media, 164

**Pressuremeter tests**

Evaluation of Performance of Two Piles Using Pressuremeter Method, 401

Finite Strain Analysis for Deep Cone Penetration, 447

Laboratory Study of Pressuremeter Tests in Clays, 444

**Pressures**

Large Water-Hammer Pressures for Column Separation in Pipelines, 548

Stability of Inelastic Tubes under External Pressure and Bending, 305

**Pressurized flow**

Simulation of Valve Closure After Pump Failure in Pipeline, 491

**Prestressing**

Design of Tensegric Shells, 856

Double-Layer Tensegrity Grids: Static Load Response. Part I: Analytical Study, 843

Double-Layer Tensegrity Grids: Static Load Response. Part II: Experimental Study, 844

Probabilistic Methods for Maintenance, 260

Probability Approximations by Log Likelihood Maximization, 167

Random Variables Versus Uncertain Values: Stochastic Modeling and Design, 1051

Stochastic FEM-Based Validation of LRFD, 828

**Problem solving**

Avoiding and Resolving Disputes during Construction: Successful Practices and Guidelines, 1249

Expert Tower Analysis and Design System. I: Architecture and Heuristics, 64

Expert Tower Analysis and Design System. II: Search Strategies and Learning, 65

Representing Strategic Choices in Structural Modeling, 74

Using Conflict Management for Better Decision Making, 639

**Productivity**

Constructability for Piping Automation: Field Operations, 110

Costs of Construction Injuries, 114

Factors Affecting Masonry-Labor Productivity, 120

Impact of Material Management on Productivity—A Case Study, 17

Integration of Engineering, Design, and Construction, 129

Labor Productivity and Work Sampling: The Bottom Line, 107

Primary Productivity in Sewage Pond: Semiempirical Model, 360

Sensor-Integrated Nailing for Building Construction, 94

Time Management for Engineers and Constructors, 1298

Total Productivity Measurement in Bus Transit: Comment, 1026

**Professional advancement**

Maintaining Existing Clients, 635

## SUBJECT INDEX

### Professional development

ASCE's Student Chapters: Statistical Analyses of Key Characteristics, 732

Comments on *Quality in the Constructed Project* from University Course, 713

Factors Affecting Professional Employee Retention, 646

Professionalism and Marketing of Civil Engineering Profession, 708

Relation Between Institutional Support and Student Chapter Achievement, 733

### Professional practice

Avoiding and Resolving Disputes during Construction: Successful Practices and Guidelines, 1249

Civil Engineering Project Management Game: Teaching with Simulation, 726

The Development of the Construction Engineer: Past Progress and Future Problems, 104

Engineering and Professional Responsibility, 718

Engineering Code of Ethics: Beneficial Restraint on Consequential Morality, 730

Engineering Design in Developing Nations: Are Foreign Standards Adequate?, 738

Engineering Education in Americas, 744

An Ethics and Professionalism Seminar in the Civil Engineering Curriculum, 716

Introducing Professionalism and Ethics in Engineering Curriculum, 743

Is the ASCE Code of Ethics Obsolete in Today's Society?, 1131

Issues on Newly Introduced Accredited Checker's System in Singapore Practice, 742

Maintaining Existing Clients, 635

Managing Problems Associated with Using Computer Programs, 660

Observation, Quantification, and Judgment: Terzaghi and Engineering Geology, 455

One Perception of Engineering Academia, 727

Pavement Failures: Oversights, Omissions and Wishful Thinking, 706

Practice-Based Structural Design Information Model (SDIM), 661

Professional Civil Engineering: Responsibility, 740

Public-Safety Issues in Collapse of L'Ambiance Plaza, 693

Time Management for Engineers and Constructors, 1298

Views on Teaching Ethics and Morals, 715

### Professional role

ASCE's Student Chapters: Statistical Analyses of Key Characteristics, 732

Earthbound Civil Engineering Experience for Space Applications, 39

An Ethics and Professionalism Seminar in the Civil Engineering Curriculum, 716

Geotechnology: An Environment of Change, 1233

Is It Good Business to Be a Citizen Engineer?, 5

Is the ASCE Code of Ethics Obsolete in Today's Society?, 1131

Politics and Engineering, 4

Professional Civil Engineering: Responsibility, 740

Relation Between Institutional Support and Student Chapter Achievement, 733

## Project management

Using Conflict Management for Better Decision Making, 639

Views on Teaching Ethics and Morals, 715

### Profile measurement

Spectral Analysis of Highway Pavement Roughness, 1014

### Profiles

Time-Constrained Resource Leveling, 112

### Profits

Personnel-Replacement Costs and Bottom Line, 650

### Program evaluation

DBE Programs—New Model, 92

### Programs

Managing Technology Transfer: A Practical Framework, 741

### Progressive waves

Lagrangian Motions in Simple Kinematic Oscillatory Flow Field, 1086

### Project control

Construction Management with AutoCAD, 651

Management of Engineering/Design Phase, 91

Project Peer Review Guidelines, 1284

Project-Controls Systems Opportunities, 124

### Project evaluation

Decision-Support Methodology for Planning and Evaluating Public-Private Partnerships, 1028

Development of In-House Project Evaluation Checklist, 643

Optimal Allocation of Project Management Resources for Achieving Success, 101

Project Peer Review Guidelines, 1284

### Project management

Advantages of Management Contracting—Critical Analysis, 93

Civil Engineering Project Management Game: Teaching with Simulation, 726

Computer-Generated Explanations in Project Management Systems, 67

Construction Contract Bonds, 654

Construction Management with AutoCAD, 651

Design of Construction Industry Information Management Systems, 125

Developing and Implementing C-SCSC, 735

Forging New Project Value Chain—Paradigm Shift, 647

Improving Highway Specifications for Constructibility, 96

Interdisciplinary Postgraduate Education for Construction Managers, 724

International Information and Technology Transfer, 737

Management of Engineering/Design Phase, 91

Optimal Allocation of Project Management Resources for Achieving Success, 101

Planning and Control of Remote Projects, 640

Problems and Potential of Irrigated Agriculture in Sub-Saharan Africa, 579

Project Peer Review Guidelines, 1284

Resource Strategies for Dynamic Project Management, 98

## Project management

- Risk and Need-for-Work Premiums in Contractor Bidding, 122
- Setting Standards in San Diego, 1175
- Site Analysis Using Controller-Function Charts, 95
- Time-Constrained Resource Leveling, 112
- Visual Interactive Fitting of Beta Distributions, 118

### Project managers

- School Is In Session, 1122

### Project planning

- Constructability and Constructability Programs: White Paper, 85
- Decision-Support Methodology for Planning and Evaluating Public-Private Partnerships, 1028
- Forecasting Design-Related Problems—Case Study, 84
- Problems and Potential of Irrigated Agriculture in Sub-Saharan Africa, 579
- Setting Standards in San Diego, 1175

### Project specifications

- Project-Specific Knowledge Bases in AEC Industry, 55

### Projectiles

- Projectile Penetration in Granular Soils, 398

### Projects

- 1991 OCEA Award Nominees, 1185

### Properties

- Early Age Properties of Pozzolanic Mortars under Hot Weather, 675
- Extreme Ice Properties, 45
- Properties of Cement Made from Sludge, 325

### Prototype tests

- Evaluation of Cascade Air Stripping—Pilot-Scale and Prototype Studies, 362

### Prototypes

- Integrated Framework for Deriving Behavior from Structural Descriptions, 76

### Pseudodynamic method

- Behavior of Composite Beam Frame by Pseudodynamic Testing, 824

### Public benefits

- The Double-Edged Sword of Technological Advancement, 729
- Is It Good Business to Be a Citizen Engineer?, 5

### Public information programs

- High Level Radioactive Waste Management, 1273

### Public participation

- Politics and Engineering, 4

### Public safety

- Disposition of Engineering Documents, 712
- Public-Safety Issues in Collapse of L'Ambiance Plaza, 693

### Public transportation

- Total Productivity Measurement in Bus Transit: Comment, 1026

### Public works

- Inspection and Rating of Miter Lock Gates, 702
- Levels of Service Applied to Urban Streams, 1071

## 1991 ASCE TRANSACTIONS

### Publications

- Comments on *Quality in the Constructed Project* from University Course, 713
- Construction Documents Revised, 1200

### Puerto Rico

- Evapotranspiration Estimation for Data-Short Environment, 576

### Pull-out resistance

- Effect of Interphases on Mechanical Behavior of Composites, 293
- Fiber Pullout and Bond Slip. I: Analytical Study, 905
- Fiber Pullout and Bond Slip. II: Experimental Validation, 906
- Helical Anchors in Dry and Submerged Sand Subjected to Surcharge, 439
- Progressive Finite Element Fracture Analysis of Pullout Concrete, 882
- Role of Stirrups and Residual Tensile Strength of Cracked Concrete on Bond, 746

### Pultrusion

- Ultimate Bending Strength of Composite Beams, 684

### Pumped storage

- Hourly Pumped-Storage Modeling with Microcomputer, 133
- Pumped Storage Promise, 1181

### Pumping

- Identification of Aquifer's Well-Pumpage Histories, 1067
- Methods of Measuring Pumpage Through Closed-Conduit Irrigation Systems, 618
- Unsteady Pressure-Driven Viscous Flows Beneath Concrete Pavement Slabs, 513

### Pumping stations

- Dynamic Model of Pump Station, 367
- Methodology for Optimal Operation of Pumping Stations in Water Distribution Systems, 561
- Optimal Design for Storm Sewer System with Pumping Stations, 1042
- Putting It Back, 1218

### Pumps

- Dynamic Model of Pump Station, 367
- Practical Two-Stage Pipe Expansions for Centrifugal Pumps, 575
- Simulation of Valve Closure After Pump Failure in Pipeline, 491

### Purchasing

- Vendor Analysis for Best Buy in Construction, 121

### Purlins

- Finite Strip Method for Analysis of Cold-Formed Purlins, 152
- Uplift Capacity of Z-Purlins, 814

### Quadratic formulas

- Equivalent Statistical Quadraticization for Nonlinear Systems, 217

- Quadratic-Equation Inaccuracy for Water Hammer, 562

- Rheology of Hyperconcentrations, 488

### Quadratic programming

- SECTAR for Economically Optimal, Sustained Ground-Water Yield Planning, 569

**Quality assurance**

## Shake table tests

Seismic Behavior of Gable Frame Consisting of Tapered Members, 792

Study of Sliding Bearing and Helical-Steel-Spring Isolation System, 820

## Shallow foundations

Damage of Structures Due to Tree Roots, 700

Performance of Strip Footing on Stratified Soil Deposit with Void, 404

## Shallow water

Dye-Concentration Distribution in Shallow Recirculating Flows, 506

Flow Around Horizontal Circular Cylinder in Shallow Flows, 1091

Stability of Transverse Shear Flows in Shallow Open Channels, 552

## Shape

Analysis of Infinite-Strip-Shaped Base Isolator with Elastomer Bulk Compression, 244

Dielectric Method for Prediction of Porosity of Saturated Soil, 385

Effect of Footing Shape on Behavior of Cantilever Retaining Wall, 416

Formulas and Charts for Impedances of Surface and Embedded Foundations, 435

Free Vibration of Embedded Foundations: Theory Versus Experiment, 436

Furrow Geometric Parameters, 609

Influence of Geometry on Discharge Capacity of Open Channels, 509

## Shear

Estimating Seismic Base Shears of Tall Wall-Frame Buildings, 919

Granular Flows: Boundary Conditions for Slightly Bumpy Walls, 160

RC Coupled Shear Wall Structures. II: Ultimate Strength Calculations, 785

RC-Coupled Shear Wall Structures. I: Analysis of Coupling Beams, 784

Seismic Shear Capacity of Reinforced Masonry Piers, 873

## Shear deformation

Analog-Beam Method for Determining Shear-Lag Effects, 233

Buckling of Columns with Overhang, 284

Buckling of Restrained Columns with Shear Deformation and Axial Shortening, 255

## Shear failure

Innovative Prestressing with FRP Sheets: Mechanics of Short-Term Behavior, 237

## Shear flow

Friction and Free-Surface Flow over Porous Media, 558

## Shear forces

Analogies Between Bending of Plates and Torsion Problem, 285

Bridge Live-Load Models, 904

Stability of Built-up Columns, 219

## Shear lag

Analog-Beam Method for Determining Shear-Lag Effects, 233

Negative Shear Lag Explained, 947

## 1991 ASCE TRANSACTIONS

Simple Model for Design of Framed-Tube Structures, 952

Thin-Walled Multicell Box-Girder Finite Element, 915

## Shear modulus

Dynamic Properties of Reinforced Sand, 437

Effect of Soil Plasticity on Cyclic Response, 374

Simplified Seismic Analysis of Embankment Dams—Canyon-Wall Configuration, 457

Transverse Isotropy Modeling of 3-D Glulam Timber Beams, 672

Wave-Number Domain Approach for Soil Variability Analysis, 421

## Shear strain

Cyclic Loading of Silty Clay with Drainage Periods, 388

Residual Strains in Calcareous Sand Due to Irregular Cyclic Loading, 380

## Shear strength

Embankment Design on Soft Clays, 450

Flexure and Shear Behavior of Concrete Beams During Fires, 770

Laboratory Study of Pressuremeter Tests in Clays, 444

Layer Model of Bending-Shear Failure in RC Plates and Beams, 910

The Mechanical Aging of Soils, 432

Mechanisms of Strength Loss in Stiff Clays, 377

Shear Strength of Composite Plate Girders with Web Cutouts, 857

Shear Strength of Open-Web Plate Girders with Inclined Tension Bars, 296

Simple Model for Shear Capacity of Webs, 768

Simplified Equivalent Loads of Prestressing, 946

Smooth HDPE-Clay Liner Interface Shear Strengths: Compaction Effects, 400

Stability Evaluation During Staged Construction, 395

Time-Dependent Shear Transfer in Cracked Concrete: Part I, 912

Time-Dependent Shear Transfer in Cracked Concrete: Part II, 913

## Shear stress

Analogies Between Bending of Plates and Torsion Problem, 285

Bed Shear Stress and Scour Over Bed-Type River Intake, 494

Bending of Nonsymmetric Sandwich Beams with Transversely Flexible Core, 253

Field Effects of Water Pumping Beneath Concrete Pavement Slabs, 1023

Rheology of Hyperconcentrations, 488

Thin-Walled, Cold-Formed Steel Composite Beams, 914

Unsteady Pressure-Driven Viscous Flows Beneath Concrete Pavement Slabs, 513

## Shear tests

Dynamic Properties of Reinforced Sand, 437

Effects of Banded Post-Tensioning in Prestressed Concrete Flat Slab, 778

Setting Time Effects on Bentonite Water-Well Annulus Seals, 603

## SUBJECT INDEX

## Simulation

Smooth HDPE-Clay Liner Interface Shear Strengths:  
Compaction Effects, 400

Time-Dependent Shear Transfer in Cracked  
Concrete: Part I, 912

Time-Dependent Shear Transfer in Cracked  
Concrete: Part II, 913

### Shear walls

Finite Element Modeling of Shear-Wall-Dominant  
Buildings, 847

Nonlinear Dynamics of Coupled Shear Walls Using  
Transfer Matrices, 804

RC Coupled Shear Wall Structures. II: Ultimate  
Strength Calculations, 785

RC-Coupled Shear Wall Structures. I: Analysis of  
Coupling Beams, 784

Stability of Shear-Wall Buildings Using Method of  
Weighted Residuals, 181

Stiffened, Coupled Shear Walls, 874

Structural Analysis Model for Static Loads on  
Timber Shear Walls, 795

### Shearing

Fatigue Failure of Insulator String of Overhead  
Transmission Line, 146

### Sheet piles

Cascading River Outfall Structure for Cooling-Water  
Discharge System, 697

Cellular Sheet-Pile Floodwall, 1126

Finite Element Analyses of HDR-4 Excavation, 446

### Shell structures

Collapse Behavior and Strength of Steel Silo  
Transition Junctions. Part I: Collapse Mechanics,  
950

Collapse Behavior and Strength of Steel Silo  
Transition Junctions. Part II: Parametric Study,  
951

Response of Hemispherical, Air-Supported  
Structures to Wind, 240

Strength of Welded Steel Silo Hoppers Under Filling  
and Flow Pressures, 893

### Shells

Axisymmetric Pressures and Thermal Gradients in  
Conical Missile Tips, 33

Design of Tensegric Shells, 856

Drag and Aero-Torque for Convex Shells of  
Revolution in Low Earth Orbit, 28

Free-Vibration Response of Column-Supported,  
Ring-Stiffened Cooling Tower, 186

Stress and Deflection Analysis of Composite  
Cantilevered Shallow Shells, 193

### Shields, tunneling

Engineering Decision Support of Automated Shield  
Tunneling, 123

### Shoaling

Sediment Management with Submerged Vanes I:  
Theory, 484

Sediment Management with Submerged Vanes. II:  
Applications, 485

Simple Conceptual Explanation of Down-Drift Offset  
Inlets, 1092

Variations on Higher-Order Shoaling, 1105

### Shock

Cavitation in Solid Medium, 151

Shock Fitting of Aggradational Profiles Due to  
Backwater, 538

### Shore protection

Coastal Engineering—Proceedings, 1254

Numerical Simulation of Shoreline Change at Lorain,  
Ohio, 1084

Working Breakwaters, 1221

### Shoreline changes

Coastal Sediments '91: Volume I & II, 1255

Numerical Simulation of Shoreline Change at Lorain,  
Ohio, 1084

Piping/Sapping Erosion. I: Basic Considerations, 531

Piping/Sapping Erosion. II: Identification-Diagnosis,  
532

Simple Conceptual Explanation of Down-Drift Offset  
Inlets, 1092

### Shores

Piping/Sapping Erosion. I: Basic Considerations, 531

### Shoring

Creep Analysis of Concrete Buildings During  
Construction, 924

### Shrinkage

Creep, Shrinkage and Thermal Effects on Mass  
Concrete Structure, 216

Damage of Structures Due to Tree Roots, 700

Geometrical Deformation Analysis of Large Concrete  
Roof Structure, 965

### Signals

Measuring Signal Platoon Flow, 1012

### Silica

Abrasion Resistance of Concrete, 665

New Silica Compact Tiltmeter for Deformations  
Measurement, 964

### Silos

Collapse Behavior and Strength of Steel Silo  
Transition Junctions. Part I: Collapse Mechanics,  
950

Collapse Behavior and Strength of Steel Silo  
Transition Junctions. Part II: Parametric Study,  
951

Strength of Welded Steel Silo Hoppers Under Filling  
and Flow Pressures, 893

### Silts

Critical Filters for Impervious Soils, 16

### Silty soils

Effect of Artificial Salting on Freezing Behavior of  
Silt Soil, 51

### Simplex method

Rapid Identification of Critical Slip Surfaces:  
Structure, 445

### Simulation

Civil Engineering Project Management Game:  
Teaching with Simulation, 726

Finite Element Analyses of HDR-4 Excavation, 446

Full-Scale Implementation of Active Control. I:  
Design and Simulation, 945
